No wonder writers and philosophers have been inspired and moved by bees. They have much to teach us, they fascinate us, they are beautiful, and their importance to mankind is beyond measure. Bees are the most studied creature by humans after mankind. The bee is associated with the production of food for humans (via pollination, but also honey), healing, and perhaps more than any other creature - if not the only creature, held up as setting a selfless example...

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
