Brand New Book ***** Print on Demand *****.Excerpt from Outlines for Thirty-Six Lessons in Agriculture, for Use in the Seventh or Eighth Grade To Boards of Education, Superintendents and Teachers: Agriculture is not entirely a new subject for study. Neither is it a stranger in the Iowa public school system, for two hundred and four schools enrolling two thousand six hundred and eighty-one pupils in such courses report work in agriculture for the past year. The Thirty-fifth General Assembly established agriculture in the courses of study for all public schools. The wisdom of this action is clear to all. Whatever the views held concerning the aims of education, agriculture can be most profitably utilized in promoting them. Moreover, agriculture interests more people than any other science. Practically all other sciences contribute to it. Agriculture is most wonderful in extent, most interesting in character, and most useful in its economic relations. Experience thus far with teaching agriculture in the schools shows that the educational values resulting from this work are as permanent as those from any other subject, whether in one or more units, while...
