

Weve Got Issues Children and Parents in the Age of Medication

By Judith Warner

HighBridge Company. No binding. Book Condition: New. Audio CD. Dimensions: 5.9in. x 5.1in. x 1.2in. Are parents and physicians too quick to prescribe medication to control our children's behavior? Are we using drugs to excuse inept parents who can't raise their children properly? Judith Warner sparked a national debate on how women and society view motherhood with her previous book *Perfect Madness*. *Weve Got Issues* will generate the same kind of controversy, as she tackles a subject that's just as contentious and important. Warner cuts through the jargon and hysteria to delve into a topic that for millions of parents involves one of the most important decisions they'll ever make for their child: whether or not to put them on behavior-modifying medication. Insightful, compelling, and deeply moving, *Weve Got Issues* is for parents, doctors, and teachers—anyone who cares about the welfare of today's children. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Audio CD.

Excellent electronic book and valuable one. Better than never, though I am quite late in starting to read this one. I am very easily able to get a delight from studying a written book.
