

# Modern Group Analysis: Advanced Analytical and Computational Methods in Mathematical Physics

Filesize: 5.62 MB

## **Reviews**

*The publication is fantastic and great. It can be rally exciting throgh reading period of time. I am just very happy to inform you that this is the greatest publication i actually have read in my very own daily life and could be he very best ebook for at any time.*

*(Prof. Alvis Wuckert)*

## MODERN GROUP ANALYSIS: ADVANCED ANALYTICAL AND COMPUTATIONAL METHODS IN MATHEMATICAL PHYSICS

To save **Modern Group Analysis: Advanced Analytical and Computational Methods in Mathematical Physics** PDF, you should click the button below and save the file or have accessibility to additional information which might be have conjunction with MODERN GROUP ANALYSIS: ADVANCED ANALYTICAL AND COMPUTATIONAL METHODS IN MATHEMATICAL PHYSICS ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the International Workshop Acireale, Catania, Italy, October 27-31, 1992 | Proceedings of the International Workshop, Acireale, Catania, Italy, October 27--31, 1992 | On the occasion of the 150th anniversary of Sophus Lie, an International Work shop "Modern Group Analysis: advanced analytical and computational methods in mathematical physics" has been organized in Acireale (Catania, Sicily, October 27 31, 1992). The Workshop was aimed to enlighten the present state ofthis rapidly expanding branch of applied mathematics. Main topics of the Conference were: - classical Lie groups applied for constructing invariant solutions and conservation laws; - conditional (partial) symmetries; - Backlund transformations; - approximate symmetries; - group analysis of finite-difference equations; - problems of group classification; - software packages in group analysis. The success of the Workshop was due to the participation of many experts in Group Analysis from different countries. This book consists of selected papers presented at the Workshop. We would like to thank the Scientific Committee for the generous support of recommending invited lectures and selecting the papers for this volume, as well as the members of the Organizing Committee for their help. The Workshop was made possible by the financial support of several sponsors that are listed below. It is also a pleasure to thank our colleague Enrico Gregorio for his invaluable help of this volume. | Hidden and nonlocal symmetries of nonlinear differential equations. Internal symmetries of differential equations. Examples of completely integrable Bateman pairs. Group method analysis of the dispersion of gaseous pollutants in the presence of a temperature inversion. Conformal invariance, Huygens principle and fundamental solutions for scalar second order hyperbolic equations. Potential symmetries and equivalent conservation laws. Some remarks on a class of ordinary differential equations: the Riccati property. Differential-algebraic and differential-geometric approach to the study...
